Re: Ex Parte Submission
CS Docket No. 98-201 ✓
RM No. 9335
RM No. 9345

Dear Ms. Salas:

On behalf of Fox Broadcasting Company, pursuant to Section 1.1206(b) of the Commission's rules, we enclose an original and one copy of materials for inclusion in the referenced docket. If there are any questions regarding this submission, please contact the undersigned.

Respectfully submitted,

HOGAN & HARTSON L.L.P.

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

SETTLEMENT AND COMPLIANCE AGREEMENT

Between

**ABC, Inc., CBS Broadcasting Inc., Fox Broadcasting Company, National
Broadcasting Company, and Certain ABC, CBS, Fox, and NBC Network
Stations; the National Association of Broadcasters; the ABC Television
Affiliates Association, the CBS Television Network Affiliates Association, the
Fox Television Affiliates Association, and the NBC Television Affiliates
Association**

and

Primestar Partners, L.P., Netlink USA, and Telluride Cablevision, Inc.

SETTLEMENT AND COMPLIANCE AGREEMENT

THIS SETTLEMENT AND COMPLIANCE AGREEMENT (the "Agreement") is made and entered into as of the Effective Date set forth in Section 29 by and between (i) ABC, Inc., CBS Broadcasting Inc., Fox Broadcasting Company, National Broadcasting Company ("the Networks"), and the ABC, CBS, Fox, and NBC affiliated and owned-and-operated television network stations signing below (collectively "Broadcasters"), (ii) the National Association of Broadcasters ("NAB"), (iii) the ABC Television Affiliates Association, the CBS Television Network Affiliates Association, the Fox Television Affiliates Association, and the NBC Television Affiliates Association (the "Affiliate Associations"), (iv) Primestar Partners, L.P. ("Primestar"), and (v) Netlink USA, a Colorado general partnership, doing business as Netlink International ("Netlink") and Telluride Cablevision, Inc., a Delaware corporation ("Telluride");

WHEREAS, the ABC, CBS, Fox, and NBC Networks deliver television programming through owned-and-operated primary network stations and primary network stations owned by third parties and affiliated with those Networks, in numerous markets in the United States (collectively "Network Stations");

WHEREAS, NAB is a trade association that has assisted the ABC, CBS, Fox, and NBC television networks and ABC, CBS, Fox, and NBC Network Stations in negotiations leading to this Agreement;

WHEREAS, Primestar and Netlink (collectively "the Satellite Carriers") are satellite carriers as defined in Section 119 of the Copyright Act (the "Satellite Home Viewer Act" or "SHVA") in that they directly or indirectly deliver ABC, CBS, Fox, and NBC network programming to some of their residential household satellite subscribers, currently through satellite retransmission of programming of a distant network station (collectively, "Satellite-Delivered Network Programming");

WHEREAS, Telluride expects in the near future to assume Netlink's entire business of the uplinking and satellite carriage of the signals of broadcast television stations (presently known as the "Denver 6"), and all of Netlink's corresponding assets and liabilities (collectively "the Netlink Satellite Carrier Business");

WHEREAS, the SHVA (or similar provisions in private agreements) limit the delivery of Satellite-Delivered Network Programming to "unserved households," as defined in the SHVA;

WHEREAS, the first part of the statutory definition of "unserved household" restricts delivery of Satellite-Delivered Network Programming to private households that "cannot receive through the use of a conventional outdoor rooftop receiving antenna, an over-the-air signal of grade B intensity (as defined by the Federal Communications Commission) of a primary network station affiliated with [the relevant] network";

WHEREAS, the second part of the statutory definition of "unserved household" restricts delivery of Satellite-Delivered Network Programming to private households that have not

subscribed to cable within the 90 days before initiating or renewing Satellite-Delivered Network Programming (the "90 Day Requirement");

WHEREAS, the Broadcasters contend that the Satellite Carriers have not in some instances restricted their sale of network programming to unserved households;

WHEREAS, the Satellite Carriers contend that they have made and continue to make good faith efforts to comply with the SHVA;

WHEREAS, the Satellite Carriers, the Broadcasters, the NAB, and the Affiliate Associations desire to resolve this matter cooperatively without resort to litigation;

WHEREAS, the parties are willing to release one another from past liability for copyright infringement or otherwise in return for their mutual agreement to establish the compliance procedures set forth in this Agreement;

NOW, THEREFORE, in consideration of the following mutual promises, and for other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. COMPUTER ANALYSIS OF SIGNAL PROPAGATION BY ZIP CODE

1.1 Computer Analysis of Propagation by Zip Code. The parties agree to retain the services of a competent contractor to carry out, for each ABC, CBS, Fox, and NBC Network Station, the initial classification of five-digit U.S. Postal Service Zip Codes ("Zip Codes") described in Section 2 below and the reclassification of Yellow Light Zip Codes based on the procedures set forth in Section 3 below. The classification shall be based on propagation data using the Longley-Rice methodology and created using the same methodology and parameters as the data underlying the ESRI maps supplied by Primestar to NAB during the negotiation of this Agreement. (Samples of the maps previously supplied by Primestar are attached as Schedule 1.1.) The propagation data used in generating the classifications to be used in implementing this Agreement are referred to below as the "Longley-Rice Data." As set forth in Schedule 1.2, the parties will ensure that interested Satellite Carriers or Broadcasters can obtain, at their own expense, maps visually depicting the Longley-Rice Data in the same format as the maps attached as Schedule 1.1. The classification developed by the contractor shall reflect the predicted propagation for the full-power transmitters and the full-power or low-power translators and terrestrial satellite stations (collectively "Station Transmitters"), associated with all (roughly 800) ABC, CBS, Fox, and NBC Network Stations. The list of Station Transmitters shall be obtained from a competent contractor, as supplemented by data provided by the Broadcasters. The NAB and the Satellite Carriers agree to split the expenses of the computer analysis process equally. The agreed-on requirements for this project are set forth in Schedule 1.2. Absent manifest error, the lists of Red Light, Green Light, and Yellow Light Zip Codes provided by the contractor on or about April 21, 1998 shall be binding on the parties.

2. INITIAL CLASSIFICATION OF ZIP CODES

2.1 **Initial Assignment.** For each Affected Network Station (as defined in Section 4.1), each relevant Zip Code (see Section 4 below) will initially be assigned to one of three categories:

- (a) entirely served (*i.e.*, predicted by the Longley-Rice Data to receive at least a Grade B intensity signal throughout the Zip Code) (hereinafter, "Red Light Zip Code");
- (b) entirely unserved (*i.e.*, predicted by the Longley-Rice Data not to receive a Grade B intensity signal anywhere in the Zip Code) (hereinafter, "Green Light Zip Code");
- (c) partially served and partially unserved (*i.e.*, predicted by the Longley-Rice Data to receive at least a Grade B intensity signal in only portions of the Zip Code) (hereinafter "Yellow Light Zip Code").

3. REFINEMENT OF CLASSIFICATION OF ZIP CODES

3.1 **Reclassification.** To enable the Satellite Carriers to establish a practical customer sign-up process, any given five-digit Zip Code will be classified as either a Red Light or a Green Light Zip Code. To make this possible, the parties agree that a Zip Code initially classified as a Yellow Light Zip Code under Section 2.1 above will be reclassified as either Red Light or Green Light by the computer analysis process described in Section 1.1 above, based on whether the majority of the population in the Zip Code (based on information obtained from the Census Bureau) is predicted by the Longley-Rice Data to receive a signal of at least Grade B intensity from an Affected Network Station. A Yellow Light Zip Code will be reclassified as a Red Light Zip Code if more than 50% of the population in that Zip Code is predicted by the Longley-Rice Data to receive a signal of at least Grade B intensity from an Affected Network Station. A Yellow Light Zip Code will be reclassified as a Green Light Zip Code if 50% or less of the population in that Zip Code is predicted by the Longley-Rice Data to receive a signal of at least Grade B intensity from an Affected Network Station. (Except to the extent revised pursuant to Sections 14 and 18, Zip Codes initially classified as Red Light or Green Light under Section 2 shall retain those classifications.) The end result of this process will be, for every Affected Network Station, a list that classifies every Zip Code within that station's DMA, and in relevant cases (see Section 4.2) certain Zip Codes outside that station's DMA, as either Red Light or Green Light.

3.2 **Proviso.** The reclassification described in Section 3.1 shall be subject to the following proviso: for each Affected Network Station, the contractor shall compare (I) the aggregate population, in Yellow Light Zip Codes reclassified as Red Light Zip Codes under Section 3.1, that is predicted by the Longley-Rice Data to receive a signal of less than Grade B intensity, and (II) the aggregate population, in Yellow Light Zip Codes reclassified as Green

Light Zip Codes under Section 3.1, that is predicted by the Longley-Rice Data to receive a signal of at least Grade B intensity. If, for a given Affected Network Station, (I) is greater than (II), the Yellow Light Zip Codes reclassified as Red Light Zip Codes shall be reclassified (in rank order starting with the Zip Codes with the lowest percentage of population shown as receiving a signal of at least Grade B intensity) as Green Light Zip Codes until (I) and (II) are approximately equal. However, the reclassification described in the preceding sentence shall be limited to Zip Codes in which less than 75% of the population is predicted by the Longley-Rice methodology set forth in Schedule 1.2 to receive a signal of at least Grade B intensity; in addition, the reclassification shall itself not cause (II) to exceed (I). This process of reclassification under this Section 3.2 shall not result in the reclassification of more than .5% (one-half of one percent) of the total population of the Zip Codes assigned to an Affected Network Station (whether inside or outside that Station's DMA) under Section 4.2 below.

3.3 Procedures for Handling Changes by the Post Office. The following procedures will be used by the parties for handling changes by the U.S. Postal Service in Zip Codes:

(a) if a Zip Code is divided into two or more new Zip Codes, the parties will, on the schedule set forth in Section 14 below, classify the new Zip Codes based on the same procedures used to classify Yellow Light Zip Codes set forth in this Section 3.

(b) if two or more Zip Codes are merged, and all of the Zip Codes were classified the same way (e.g., both Green Light) under Section 3.1 above, the new Zip Code will be classified the same way; and

(c) if two or more Zip Codes are merged (or a Zip Code otherwise is created from multiple Zip Codes), and the Zip Codes were classified differently under Section 3.1 above, the parties will, on the schedule set forth in Section 14 below, reclassify the Zip Code based on the same procedures used to classify Yellow Light Zip Codes set forth in this Section 3.

3.4 Classification of "Unknown" Zip Codes. A Zip Code that is not on either the list of Red Light Zip Codes or the list of Green Light Zip Codes shall be treated as a Red Light Zip Code. Unless and until the Zip Code is classified as a Green Light Zip Code pursuant to Section 14 below, a prospective subscriber who provides such a Zip Code shall not be provided Satellite-Delivered Network Programming unless one of the conditions set forth in Section 4.3(a)-(d) below is satisfied with respect to that prospective subscriber.

4. RULES FOR RED LIGHT ZIP CODES

4.1 Affected Network Stations. An "Affected Network Station," for purposes of this Agreement, shall mean, with respect to a particular subscriber and the Satellite-Delivered Network Programming of a particular Network, a primary Network Station of the same affiliation (e.g., ABC, CBS, Fox, or NBC) as the Satellite-Delivered Network Programming retransmitted by the Satellite Carrier where either (i) the Network Station's Designated Market

Area as defined by Nielsen ("DMA") includes the subscriber's Zip Code or (ii) the Network Station enjoys rights outside its DMA in the subscriber's Zip Code pursuant to Section 4.2 below.

4.2 Area in Which Network Stations Will Enjoy Rights With Respect to Satellite-Delivered Network Programming. The parties recognize that the SHVA defines an unserved household (in part) by reference to availability of an over-the-air signal of Grade B intensity of a primary network station, and that some Network Stations deliver a Grade B intensity signal in areas outside of their DMA. Without prejudice to their legal positions concerning Section 119, the parties agree that a Network Station will be considered an Affected Network Station only within (a) Zip Codes determined under the procedures set forth in this Agreement to be located within the Network Station's own DMA as assigned by Nielsen, and (b) Zip Codes in the non-DMA counties assigned to that station in the Nielsen reports attached as Schedule 4.2, so long as the Longley-Rice Data predict that at least 99% of the population of the Zip Code in such non-DMA county is served with an over-the-air signal of Grade B intensity by the Network Station.

The NAB and the Satellite Carriers shall arrange for creation of a single, national Zip Code list identifying each Zip Code in the United States as Red Light or Green Light with respect to each Network. If a Zip Code is classified as Red Light with respect to any Affected Network Station of a particular Network, it shall be treated as a Red Light Zip Code with respect to that Network.

4.3 Rules For Service in Red Light Zip Codes. Subject to Sections 9 and 10 below, and on the schedule set forth in Schedule 4.7, each Satellite Carrier agrees not to deliver Satellite-Delivered Network Programming from a particular Network (e.g., ABC, CBS, Fox, or NBC) to any subscriber in a Red Light Zip Code unless:

(a) the Satellite Carrier (or the prospective subscriber) has obtained from each Affected Network Station a written statement of non-objection (hereafter "Waiver"), which an Affected Network Station shall be entitled to grant or not grant for any reason in its own sole discretion;

(b) the Satellite Carrier or an Affected Network Station has conducted a signal intensity test pursuant to the procedures specified in Section 7 hereto showing that the subscriber does not receive a Grade B intensity signal (a "Below-Grade-B Test"), with at least 45 calendar days prior written notice to the other party, or all Affected Network Station(s) have stated in writing in response to a Satellite Carrier's notice of intent to conduct a signal intensity test of a particular subscriber that the test need not be conducted;

(c) the Satellite Carrier has obtained voluntary licenses from all relevant holders of copyright interests, including but not limited to the relevant Network and Affected Network Station(s); or

(d) the subscriber is an Existing Red Light Subscriber who resides in a Yellow Light Zip Code reclassified as Red Light pursuant to Section 3, and has been determined pursuant to Section 9.3 to qualify for continued delivery of Satellite-Delivered Network Programming of the relevant Network.

On written request by a Network with respect to a particular subscriber, a Satellite Carrier shall provide to a Network, within 30 days after receipt of the Network's written request, a copy of documentation supporting the Satellite Carrier's contention that the subscriber qualifies under subsection (a) or (b) above, including (1) a copy of any Waiver or statement by an Affected Network Station that a test need not be conducted, (2) the date when a signal intensity test was conducted, and/or (3) if specifically requested, a copy of the test results. In addition, a Satellite Carrier shall provide such information based on direct requests (i.e., not through a Network) from no more than 50 Affected Network Stations per Satellite Carrier in any given calendar year.

4.4 Additional Principles Concerning Station Waivers. An Affected Network Station shall make good faith efforts to respond in writing within 60 days from the date of receiving a written request for a Waiver with respect to a subscriber in a Red Light Zip Code assigned to that Station pursuant to this Section 4. Waivers for subscribers who subscribed to Satellite-Delivered Network Programming of the relevant network from the relevant Satellite Carrier before the Effective Date of this Agreement ("Existing Subscribers") shall remain effective for the term of this Agreement. (If Primestar acquires any C-band subscribers prior to the Effective Date, those subscribers shall not be deemed Existing Subscribers (whether Existing Red Light Subscribers or Existing Green Light Subscribers) of Primestar.) When there is more than one Affected Network Station with respect to a particular subscriber and a particular Network and a particular Red Light Zip Code, each Affected Network Station must provide a Waiver before that subscriber can be provided with the applicable Satellite-Delivered Network Programming. Subscribers who have obtained a Waiver from at least one Affected Network Station of a particular Network before the Effective Date of this Agreement shall be treated as having Waivers from all Affected Network Stations of that Network, provided that the total number of such subscribers nationally shall not exceed 15,000 for Netlink and 15,000 for Primestar.

4.5 "Loser Pays" Procedures. A Satellite Carrier shall be responsible for the actual cost of conducting a signal intensity test for a subscriber that is tested and found to receive at least a Grade B intensity signal pursuant to the procedures set forth in this Agreement. An Affected Network Station shall be responsible for the actual cost of conducting a Below-Grade-B Test pursuant to the procedures set forth in this Agreement. Notwithstanding the actual cost, a party shall not be required to reimburse another party for more than \$150 for the cost of a signal intensity test of a single subscriber. No Satellite Carrier shall be required to pay for any signal intensity test with respect to a subscriber as to which the relevant Affected Network Station(s) has received, at least three days before the proposed date of the test, a written notice from the Satellite Carrier that the subscriber will be terminated within 60 days of the date of the Satellite Carrier's notice. No Affected Network Station shall be required to pay for any signal intensity

test with respect to a subscriber as to which the Satellite Carrier has received, at least three days before the proposed date of the test, a written notice from the Affected Network Station that the test need not be conducted.

4.6 Notification of Eligibility. If a subscriber in a Red Light Zip Code satisfies one of the conditions set forth in Section 4.3, the Satellite Carrier will so indicate with a notation on its reports of subscribers provided to the Networks under Sections 8.1, 9.2, 9.3, and 10.

4.7 Implementation of Procedures. The Satellite Carriers will implement the procedures set forth in this Agreement pursuant to the schedule set forth in Schedule 4.7 ("Deadlines").

4.8 Other restrictions on provision of Satellite-Delivered Network Programming. The SHVA (or similar limitations in private license agreements) restricts the delivery of Satellite-Delivered Network Programming to households for private home viewing, as distinguished, for example, from delivery to commercial establishments. The Broadcasters reserve all of their rights under the Copyright Act with regard to any delivery by the Satellite Carriers or their agents or distributors to any customer that is not a household or that uses Satellite-Delivered Network Programming other than for private home viewing. In addition, the Satellite Carriers agree to terminate delivery of Satellite-Delivered Network Programming to a subscriber if presented with a written statement from a local cable system under penalty of perjury, and consistent with applicable privacy statutes, that the subscriber does not satisfy the 90 Day Requirement of Section 119(d)(10)(B) as in force on December 31, 1997, or any similar successor provision.

5. RULES FOR GREEN LIGHT ZIP CODES

A Satellite Carrier may initiate delivery of Satellite-Delivered Network Programming under this Agreement to any subscriber located in a Green Light Zip Code without obtaining a prior Waiver or conducting a signal intensity test. An Affected Network Station may, at its option, subject to the limits of Sections 9.1 and 10 hereof as applicable, conduct a signal intensity test pursuant to the procedures specified in Section 7 hereto for subscribers in Green Light Zip Codes, or Existing Red Light Subscribers permitted to continue to receive Satellite-Delivered Network Programming pursuant to Section 9.3 below, with at least 45 calendar days' prior written notice to the Satellite Carrier. Unless otherwise permitted under Section 4.3(a), (c), or (d), the Satellite Carrier will be required to terminate any such subscriber determined to receive a Grade B intensity signal in accordance with the procedures set forth in Schedule 7, within 60 days of receiving written notice of the test results. The "loser pays" procedures set forth in Section 4.5 and Schedule 7 hereto shall apply to testing done under this Section 5.

6. ADDITIONAL RULES CONCERNING TESTING

6.1 Limits on testing of New Subscribers.

(a) For subscribers in Zip Codes in a particular Monthly List (as defined hereafter in Section 8.1) provided to Broadcasters by a Satellite Carrier under Section 8.1, no Affected Network Station may give the Satellite Carrier notices of intent to conduct signal intensity testing under Section 5 that exceed the following limits:

(1) ten percent (10%) of the New Subscribers reported on that Monthly List as having signed up for Satellite-Delivered Network Programming of the relevant Network during the reporting month who reside in Green Light Zip Codes in which less than twenty-five percent (25%) of the population is predicted to receive a signal of at least Grade B intensity by the Longley-Rice methodology set forth in Schedule 1.2; and

(2) thirty percent (30%) of the New Subscribers reported on that Monthly List as having signed up for Satellite-Delivered Network Programming of the relevant Network during the reporting month who reside in Green Light Zip Codes in which twenty-five percent (25%) to fifty percent (50%) of the population is predicted to receive a signal of at least Grade B intensity by the Longley-Rice methodology set forth in Schedule 1.2.

(b) There is no limit on the number of notices of intent to conduct signal intensity testing that Affected Network Stations may send to a Satellite Carrier under Section 5 in Zip Codes in which more than fifty percent (50%) of the population is predicted to receive a signal of at least Grade B intensity by the Longley-Rice methodology set forth in Schedule 1.2.

(c) No Satellite Carrier may give any Affected Network Station notices of intent to conduct signal intensity testing of subscribers in Red Light Zip Codes under Section 4 above that exceed the absolute number of notices of intent to conduct signal intensity testing that the Affected Network Station may give to the Satellite Carrier for the relevant period.

6.2 Limits on testing by Affected Network Stations of Existing Subscribers. The percentage limits set forth in Section 6.1 above shall also apply to Existing Subscribers required to be reported by a Satellite Carrier pursuant to Sections 9.3 and 10 below. (For example, an Affected Network Station may not give notices of intent to conduct signal intensity testing for more than ten percent (10%) of Existing Subscribers in Zip Codes in which less than twenty-five percent (25%) of the population is predicted to receive a signal of at least Grade B intensity.) Any notices of intent to conduct signal intensity testing of Existing Green Light Subscribers under Sections 5 and 10 shall be sent to the pertinent Satellite Carrier within 150 days after the end of the Transition Period. Notwithstanding Section 5, an Affected Network Station shall give the Satellite Carrier 150 days notice of intent to conduct such testing of Existing Green Light Subscribers.

6.3 Limits on testing of Existing Red Light Subscribers. No Satellite Carrier may give any Affected Network Station notices of intent to conduct signal intensity testing of Existing Red Light Subscribers under Sections 4 and 9 hereof that exceed the absolute number of notices of intent to conduct signal intensity testing that the Affected Network Station may give to the Satellite Carrier with respect to Existing Green Light Subscribers under Section 6.2 above.

6.4 Application of limits. The limits on notices of intent to conduct testing in this section shall be applied separately as to each Affected Network Station and to each Satellite Carrier. The percentage limits in Section 6.1(a) above shall be computed by taking all Zip Codes in the relevant category as a whole (e.g., all Zip Codes assigned to a particular Affected Network Station in which less than twenty-five percent (25%) of the population is predicted to receive a signal of at least Grade B intensity). Subscribers for whom an Affected Network Station has previously given a Satellite Carrier a notice of intent to conduct testing at the same location shall not count against the limits on testing under this Section 6 for that Station as to that Satellite Carrier.

An Affected Network Station may combine, in a notice of intent to conduct signal intensity testing, subscribers who signed up for Satellite-Delivered Network Programming in different months, subject to the numerical limits set forth in this Section 6. For example, for subscribers in Zip Codes that are shown as less than 25% served, an Affected Network Station could send in May a notice of intent to test 10% of the New Subscribers who signed up for Satellite-Delivered Network Programming in January, 10% of the New Subscribers who signed up for Satellite-Delivered Network Programming in February, and 10% of the New Subscribers who signed up for Satellite-Delivered Network Programming in March. If an Affected Network Station proposes to test a group of subscribers from Monthly Lists larger than the number of subscribers who could be tested among the subscribers who signed up for Satellite-Delivered Network Programming in the most recent month covered by the Monthly List that the Network Station has most recently received from its Network, it shall give the Satellite Carrier 100 days notice of intent to conduct signal intensity testing, rather than the 45 days provided under Section 7.

6.5 Effect of limits. Notices of intent to conduct signal intensity testing that exceed the numerical limits set forth in this Section 6 shall not have any force and effect.

7. AGREEMENT ON TESTING METHODOLOGY

The procedures set forth in Schedule 7 hereto will be used in conducting signal intensity tests to determine whether the subscriber can receive a signal of Grade B intensity (e.g., 47 dBu for low-VHF channels) from an Affected Network Station.

8. MONITORING AND ENFORCEMENT OF AGREEMENT

8.1 Monthly Lists. To enable the Satellite Carriers to discover and correct any inadvertent signups of subscribers in Red Light Zip Codes for Satellite-Delivered Network Programming, the parties have agreed to the following procedures: beginning on the dates specified in Schedule 4.7, and subject to the additional 15 days allowed for the first month after the Effective Date to enable the Satellite Carriers to work out problems in initially implementing the system, each Satellite Carrier agrees to provide to the Networks, no later than two months after the close of any reporting month, a complete and accurate list ("the Monthly List") of all New Subscribers (as defined in Section 8.7) who received Satellite-Delivered Network Programming at any time during the reporting month. The Monthly List shall be a cumulative list of all New Subscribers who received Satellite-Delivered Network Programming during the reporting month, whether they signed up for Satellite-Delivered Network Programming during that month or continued to receive such Programming pursuant to a previous signup. For example, on April 1 each Satellite Carrier will be required to send to the Networks a report listing all New Subscribers who received Satellite-Delivered Network Programming from that Carrier during the month of January. The Monthly Lists will contain the categories of information reflected in Schedule 8.1 hereto and will be in a standard and readily readable database format. The Monthly Lists shall also include the dates of signup and (if applicable) termination for each subscriber. (The term "termination" means cessation of delivery of Satellite-Delivered Programming for any reason.)

8.2 Information To Be Supplied in Electronic Form to Each Network. The Satellite Carriers agree to provide the lists described in Sections 8.1, 9.2, 9.3, and 10 of this Agreement in electronic form to each Network separately. Alternatively, each of the Satellite Carriers, at its option, may provide a consolidated database to all four Networks if the required information is shown separately for each Network. The Satellite Carriers agree that the Networks may provide the information to their affiliated and owned-and-operated stations in paper form, in hard-copy electronic form (e.g., diskette), or by reasonably secure proprietary electronic transfer (not on an Internet basis).

8.3 Liquidated Statutory Damages. Each of the Satellite Carriers agrees to pay the Affected Network Station(s) liquidated statutory damages of \$5 per month for each Unauthorized Subscriber, provided that no liquidated statutory damages shall be due from a particular Satellite Carrier to a particular Affected Network Station for a particular month for New Subscribers who are within the Grace Period and who account for less than 5% of the New Subscribers required to be reported on the pertinent Monthly List in Zip Codes assigned to that Affected Network Station under Section 4 above. No liquidated statutory damages shall be payable with respect to delivery of Satellite-Delivered Network Programming by Netlink to subscribers during the first five months after the Effective Date, or with respect to delivery of Satellite-Delivered Network Programming to subscribers by Primestar during the first three-and-one-half months after the Effective Date. In addition, no liquidated statutory damages shall be payable by Netlink with respect to delivery of Satellite-Delivered Network Programming prior to April 1, 1999 to

Unauthorized Subscribers in Green Light Zip Codes (see Section 8.7(b) and (c)) who are terminated within two business days of being authorized to receive Satellite-Delivered Network Programming. The \$5 per-subscriber payment is applicable separately to each Network signal received by an Unauthorized Subscriber. (For example, if an Unauthorized Subscriber in a Red Light Zip Code for each Network was receiving all four Networks, the Satellite Carrier would owe \$20 per month.) If there is more than one Affected Network Station with respect to a particular subscriber and a particular Network, the payment will remain \$5 per month for that subscriber and that Network, which shall be divided equally among the Affected Network Stations of that Network. At its option, a Satellite Carrier may send a single consolidated payment to each Network for the benefit of all Affected Network Stations owned by or affiliated with that Network, at the addresses identified below, as a central collection point for the payments to Affected Network Stations, rather than paying the Affected Network Stations directly. Payment shall be made within 60 days of the deadline for delivery of the relevant report.

8.4 Specific Performance. The parties recognize and acknowledge that if a Satellite Carrier should sell Satellite-Delivered Network Programming to Significant Numbers of Unauthorized Subscribers, money damages would be inadequate to compensate the Broadcasters. ("Significant Numbers" shall mean more than 5% of a Satellite Carrier's New Subscribers assigned to an Affected Network Station under Section 4 who sign up for Satellite-Delivered Network Programming during any period of six consecutive months or more than 5% of a Satellite Carrier's Existing Subscribers required to be reported under sections 9.2, 9.3, or 10, provided that fewer than 30 Unauthorized Subscribers for a single Affected Network Station for a single six-month period (or reported under Section 9.2, 9.3, or 10) shall not be considered to be "Significant Numbers." For a Network, "Significant Numbers" shall mean more than 5% of a Satellite Carrier's New Subscribers nationally over a six-month period, or more than 5% of a Satellite Carrier's Existing Subscribers required to be reported under Sections 9.2, 9.3, or 10.) The parties therefore agree and acknowledge that if a Satellite Carrier should sell Satellite-Delivered Network Programming to Significant Numbers of Unauthorized Subscribers, an Affected Network Station or Network shall be entitled to obtain, in addition to the liquidated statutory damages available to Affected Network Stations under Section 8.3, specific performance through Alternative Dispute Resolution under Section 28 below to prevent or cure such failure and to enforce specifically the terms and provisions hereof, in addition to the other remedies provided for in this Agreement. This Section 8.4 is without prejudice to the parties' positions with regard to the availability of specific performance of other provisions of this Agreement.

8.5 Audit rights. To enable Broadcasters to confirm that the reports provided pursuant to this Agreement are complete and accurate, the Broadcasters shall have the right, no more often than once every 12-month period, to have an audit of the Satellite Carriers' subscriber records carried out by personnel from a Big Six (or comparable) accounting firm. The audit shall be at the Broadcasters' expense unless the audit discloses errors or omissions of greater than 5% of the audited subscribers, in which case the relevant Satellite Carrier shall bear the reasonable expense

of the audit. The audit right must be exercised by the Broadcasters collectively; only one audit of any single Satellite Carrier may be conducted during any 12-month period. Claims based on the audit shall be limited to alleged errors or omissions during the 24-month period preceding the date of the audit. Any claim for reimbursement of the reasonable expenses of an audit shall be served on the relevant Satellite Carrier(s) within 60 days of completion of the audit. The audit rights described in this Section 8.5 shall extend only to information relating to subscriber lists due under Sections 8.1, 9.2, 9.3 and 10 of this Agreement before or during the audit, and not to information relating to subscriber lists due after the audit is completed, or to other unrelated information.

8.6 Reports to Be Accepted in Lieu of Reports Specified by Statute. The Broadcasters agree, while this Agreement is in effect, to accept the monthly reports described in Section 8.1 above in lieu of the monthly reports required to be made under 17 U.S.C. § 119(a)(2)(C). The Broadcasters agree that while this Agreement is in effect, they will not seek to require the Satellite Carriers to submit any different or additional monthly reports nor to seek any relief under the Copyright Act for any Satellite Carrier's failure to make reports in the manner specified under Section 119(a)(2)(C).

8.7 Definition of "Unauthorized Subscriber." An "Unauthorized Subscriber" means any subscriber that falls into one of the following categories:

(a) a subscriber that signs up for Satellite-Delivered Network Programming after the Effective Date of this Agreement ("New Subscriber"), is located in a Red Light Zip Code, and does not satisfy one of the conditions set forth in Section 4.3(a)-(d);

(b) any New Subscriber that has been tested and found to receive a Grade B intensity signal pursuant to the procedures set forth in this Agreement, starting 60 days after the relevant Satellite Carrier receives written notice of the test results; and

(c) any New Subscriber as to which the relevant Satellite Carrier has provided a written notice of intent to terminate after receiving a notice of intent to conduct signal intensity testing, starting 60 days after that Satellite Carrier gives written notice of intent to terminate.

Starting at the end of the Transition Period, the following shall also be considered Unauthorized Subscribers:

(d) any Existing Red Light Subscriber that does not satisfy one of the conditions set forth in Section 4.3 (a)-(d);

(e) any Existing Subscriber that is tested after the end of the Transition Period and found to receive a signal of Grade B intensity pursuant to the procedures set forth in this Agreement, starting 60 days after the relevant Satellite Carrier receives written notice of the test results; and

(f) any Existing Subscriber that is terminated after receiving a notice of intent to conduct, after the end of the Transition Period, signal intensity testing, starting 60 days after the relevant Satellite Carrier gives a written notice of intent to terminate.

8.8 Definition of "Grace Period." The "Grace Period" means the period between the date when a New Subscriber signs up for Satellite-Delivered Network Programming from a particular Satellite Carrier and the end of the second month after the end of the month when the New Subscriber signs up. If a New Subscriber signs up for Satellite-Delivered Network Programming on January 15, for example, the Grace Period lasts until the end of two months after the end of January, or from January 15 through March 31. For subscribers who sign up for Satellite-Delivered Network Programming during the first month after the Effective Date, the Grace Period is two-and-one-half months after the end of the month in which the New Subscriber signs up. The term "Grace Period" is applicable only to New Subscribers.

8.9 Other matters. The Satellite Carriers agree to take all reasonable steps to ensure that no subscriber is covered by more than one Grace Period. The Satellite Carriers agree to report to the Broadcasters at the first and subsequent six-month meetings on the steps they have taken to address this issue and to work cooperatively with the Broadcasters to take any further reasonable steps that may be necessary. The Satellite Carriers further agree, if reasonably feasible, to provide Monthly Reports to the Networks on a shorter schedule (e.g., one month after the end of the reporting month), beginning with the first reporting month after the first six-month meeting under Section 14.

9. RULES FOR EXISTING SUBSCRIBERS IN RED LIGHT ZIP CODES

9.1 Transition Period. To permit Existing Red Light Subscribers to make alternative arrangements (i.e., install a new antenna, tune up an existing antenna, or otherwise make substitute arrangements), and as an accommodation to the Satellite Carriers in light of their willingness to enter into this Agreement, the Satellite Carriers may continue, for 14 (fourteen) months after the Effective Date, or as extended under Section 9.4 (the "Transition Period"), to serve subscribers in Red Light Zip Codes who subscribed to Satellite-Delivered Network Programming of the relevant Network from the relevant Satellite Carrier before the Effective Date ("Existing Red Light Subscribers") provided that nothing in this Section 9 shall affect any New Subscriber.

After the end of the 14th (fourteenth) month after the Effective Date, or the date specified in Section 9.4, whichever comes later (the "end of the Transition Period"), Existing Red Light Subscribers with respect to a particular Network shall no longer be provided with Satellite-Delivered Network Programming from that Network unless one of the four conditions set forth in Section 4.3(a)-(d) is satisfied. Unless one of these four conditions is satisfied, Existing Red Light Subscribers shall be treated as Unauthorized Subscribers after the end of the Transition Period. Before the end of the Transition Period, Broadcasters shall not be entitled to insist that

Existing Red Light Subscribers be disconnected through use of the testing procedures described in Section 7 or otherwise.

9.2 Post-Transition Period List. The Satellite Carriers shall provide the Networks, within 60 days after the end of the Transition Period, a list of any Existing Red Light Subscribers who continue as of that date to subscribe to Satellite-Delivered Network Programming, in the format attached as Schedule 8.1. This list shall be provided in electronic form to each Network separately.

9.3 Existing Red Light Subscribers in Yellow-Light Zip Codes. The parties agree that Existing Red Light Subscribers in Yellow Light Zip Codes reclassified as Red Light Zip Codes pursuant to Section 3.1 who received Satellite-Delivered Network Programming of a particular Network from a Satellite Carrier before the Effective Date may continue to receive Satellite-Delivered Network Programming of that Network from that Satellite Carrier after the end of the Transition Period if (a) the location of the Subscriber's street address can be specifically determined by standard computer mapping techniques (a process known as "geocoding") and (b) the Longley-Rice Data predict that such location does not receive a signal of Grade B intensity from the relevant Affected Network Station(s). (To qualify under the preceding sentence, such subscriber's street address must be capable of being individually located through standard computer mapping techniques, and not merely deemed to be at the centroid of a Zip Code.) In addition, if the street addresses (not Post Office boxes) of certain Existing Red Light Subscribers cannot be geocoded despite all reasonable professional efforts, a Satellite Carrier may treat such Subscribers as though they have been geocoded as unserved, provided that the number of Subscribers so treated under this sentence shall not exceed 5% of the Existing Red Light Subscribers in Yellow Light Zip Codes reclassified as Red Light Zip Codes for any Affected Network Station. A Satellite Carrier may continue to provide Satellite-Delivered Network Programming to Subscribers pursuant to this Section 9.3 only if it provides the Networks, at least 60 days after the end of the Transition Period, with a written report in the format attached as Schedule 8.1, and created pursuant to competent professional standards for geocoding, listing all Existing Red Light Subscribers that the Satellite Carrier wishes to continue to serve pursuant to this Section 9.3, verifying that each such subscriber satisfies the requirements set forth in the preceding sentences of this Section 9.3, and describing the procedures used to make that determination. Nothing in this Section 9.3 shall affect any subscriber in a Zip Code that the Longley-Rice Data predict to be entirely served.

9.4 Initiation of Transition Period. Notwithstanding Section 9.1, a Satellite Carrier will not be required to terminate Existing Red Light Subscribers until such time as the other major entities delivering Satellite-Delivered Network Programming are legally restrained (by agreement or preliminary or permanent injunction of nationwide scope) from signing up new ineligible subscribers. (The "other major entities delivering Satellite-Delivered Network Programming" means DirecTV, Echostar, and PrimeTime 24 for Primestar and PrimeTime 24 for Netlink.) The agreement or court order must substantially limit the relevant entities from signing up subscribers that are likely to receive a signal of Grade B intensity. If the agreement or

court order satisfies the requirements in the preceding sentences of this Section 9.4 with respect to at least two of the Networks, the parties agree to treat the agreement or court order for purposes of this Section 9.4 as though it were applicable to all ABC, CBS, Fox, and NBC Network Stations and to any New Network stations that have entered into a substantially similar agreement under Section 14.2 below. An entity delivering Satellite-Delivered Network Programming will be deemed so restrained if substantially all of its major distributors (in terms of numbers of subscribers) are so restrained. If the relevant entities become legally restrained in the manner described above after the Effective Date, the Satellite Carriers shall have 14 months, starting from the date of such legal restraint, to complete the process of terminating Existing Red Light Subscribers. If the legal restraint on these entities is lifted, the Satellite Carriers' obligation to terminate their Existing Red Light Subscribers shall be suspended until such time as the legal restraint is reimposed. Nothing in this paragraph alters the Satellite Carriers' obligations to apply the Red Light/Green Light procedures described in this Agreement to signups of New Subscribers.

10. RULES FOR EXISTING SUBSCRIBERS IN GREEN LIGHT ZIP CODES

Until the end of the Transition Period, Broadcasters shall not be entitled to insist that subscribers in Green Light Zip Codes who subscribed to Satellite-Delivered Network Programming of the relevant Network from the relevant Satellite Carrier before the Effective Date ("Existing Green Light Subscribers") be disconnected through use of the testing procedures described in Section 7 or otherwise. Thereafter, Existing Green Light Subscribers shall be subject to the procedures set forth in Sections 5 and 6, as applicable. The Satellite Carriers shall provide the Networks, at least 60 days before the end of the Transition Period, a list of any Existing Green Light Subscribers who continue to subscribe to Satellite-Delivered Network Programming as of that date, in the format attached as Schedule 8.1.

11. SUBSCRIBER INFORMATION

11.1 Actual Street Addresses Required. In gathering information about subscribers, the Satellite Carriers will tell actual and prospective subscribers to Satellite-Delivered Network Programming (and will require their respective distributors and/or agents to tell such actual and prospective subscribers) that they must provide the actual street (or other physical location) addresses for the household where the dish is located. (A Post Office box or a billing address at a different location would not qualify as an acceptable address under the preceding sentence.) The Satellite Carriers will provide names, street addresses, and the other information set forth on Schedule 8.1 hereto in their reports to the Networks. A subscriber reported with only a Post Office box shall automatically be considered to reside in a Red Light Zip Code.

11.2 Additional Information Required. The Satellite Carriers agree to provide telephone numbers for the household where the dish is located for each of their subscribers on the subscriber lists submitted to Broadcasters under this Agreement. The obligation in the preceding sentence of this Section 11.2 shall be subject to applicable privacy statutes. After due

diligence, however, the parties are aware of no applicable statutes that impose restrictions on the ability of the Satellite Carriers to provide the telephone numbers. The Broadcasters agree not to use subscriber telephone numbers or other information in the Monthly Lists and other reports for any purpose other than for compliance monitoring purposes and agree not to use telephone numbers provided under this Agreement to contact subscribers. The Satellite Carriers also agree to provide middle initials and other identifying information, to the extent reasonably available from their customer records, to assist the Broadcasters in identifying Zip Code misreporting problems. If an Affected Network Station provides substantial evidence of incorrect Zip Code reporting with respect to a particular subscriber, the affected Satellite Carrier(s) agree either to terminate the subscriber within 60 calendar days if appropriate or to explain why there is insufficient reason to believe that the address is incorrect.

11.3 Substantial Misreporting. If substantial reporting of incorrect Zip Codes or other subscriber information is preventing the purposes of this Agreement from being achieved, the Broadcasters and Satellite Carriers agree to develop and implement reasonable means to solve that problem.

11.4 Proviso. In providing subscriber information to the Networks under this Agreement, the Satellite Carriers shall provide the information as it is given to them by their subscribers in the ordinary course of business, provided that the Satellite Carriers remain obligated to provide all categories of information set forth in Schedule 8.1 with respect to each subscriber required to be reported on any subscriber list required to be provided to the Networks under this Agreement. A Satellite Carrier shall not be liable for liquidated statutory damages under Section 8.3 with respect to a subscriber who provides a Green Light Zip Code in the ordinary course of the customer signup process that the Satellite Carrier accepts in good faith as the correct Zip Code with respect to the location of that subscriber's dish. Nothing herein shall preclude a Broadcaster from seeking damages under Section 8.3 with respect to a Satellite Carrier's knowing participation in the solicitation of or knowing acceptance of incorrect Zip Code information.

12. AGREED PRESS STATEMENT

Attached as Schedule 12.1 hereto is a statement that the parties will provide to the press at a time to be agreed on stating that this Agreement is a fair resolution of the parties' differing interests and that the parties do not believe that legislative change in the prohibition on provision of Satellite-Delivered Network Programming under the Section 119 compulsory license to households that can receive a signal of Grade B intensity from a local network station is appropriate.

13. ENSURING THAT THE MAXIMUM NUMBER OF STATIONS ARE PART OF THE AGREEMENT

NAB will circulate a memorandum to the ABC, CBS, Fox, and NBC Affiliate Associations, to each Network, and to all Network Stations, endorsing the Agreement and requesting that each Affiliate Association, Network, and Network Station send back an executed signature page of this Agreement agreeing to be bound by it. NAB will assign a staff person (or arrange for similar efforts by the Affiliate Associations) to collect signatures from Network Stations. The Satellite Carriers reserve the right to decline to enter into the Agreement if fewer than 75% of each of the ABC, CBS, Fox, and NBC Network Stations have signed this Agreement. After the Effective Date, the NAB, the Networks, and the ABC, CBS, Fox, and NBC Affiliate Associations (if 75% of the stations in a particular Affiliate Association have signed the Agreement) shall not support any member station in efforts to enforce the SHVA with respect to ABC, CBS, Fox, or NBC Network Stations (except as to the rights reserved in the first two sentences of Section 4.8 or through a copyright infringement lawsuit permitted under Section 23.3) against the Satellite Carriers over delivery of Satellite-Delivered Network Programming other than through enforcement of this Agreement, for so long as this Agreement remains in force, provided that the provision of legal interpretations and advice to stations about their legal rights under the SHVA and this Agreement, including advice or interpretations with respect to enforcement options, does not violate this or any other provision of this Agreement.

14. MODIFICATION IN LIGHT OF CHANGED CIRCUMSTANCES

14.1 Meetings Every Six Months to Update Data and Procedures. The parties are aware that over time, technical circumstances will change that will affect the implementation of this Agreement. Those technical circumstances include, but are not limited to, modifications of Zip Code lists by the Post Office, changes in the affiliation of stations, additions of translators, the deployment of terrestrial digital broadcasting, and potentially the addition of one or more additional broadcast television networks that deliver programming through network stations and are entitled to "unserved household" protection under the Copyright Act or similar protection under the Copyright Act or otherwise ("New Networks"). The NAB (on behalf of the Broadcasters) and the Satellite Carriers agree to meet every six months to do the following:

a. Nonjudgmental changes. The NAB (on behalf of the Broadcasters) and the Satellite Carriers agree to change the Red Light and Green Light Zip Code databases to reflect (1) modifications of Zip Code lists by the Post Office, (2) changes in station affiliation, (3) changes in the location, height, or power of Station Transmitters, (4) additions or deletions of Station Transmitters, (5) corrected information about the location, height, or power of Station Transmitters (in the event of errors or omissions in the information used in creating the initial Longley-Rice Data), (6) the entry of a New Network into the Agreement (which is governed by Section 14.2 below), (7) changes made by Nielsen in the assignment of counties to DMAs, and (8) once every three years, changes in out-of-DMA viewing patterns reflected in an updated Nielsen study similar to that commissioned by the parties in October 1997, provided that

broadcasters shall not be entitled to a larger number of out-of-DMA station/county matchups for ABC, CBS, Fox, and NBC Network Stations than are reflected in Schedule 4.2 hereto. The NAB (on behalf of the Broadcasters) and the Satellite Carriers shall also update the list of addresses to which notices are to be given under Section 27 below.

b. **Judgmental changes.** The NAB (on behalf of the Broadcasters) and the Satellite Carriers agree to negotiate in good faith to attempt to reach agreement on amendments to the Agreement to reflect other new developments, including the deployment of terrestrial digital broadcasting, or other circumstances unanticipated by the parties.

14.2 **New Networks.** The parties agree that any New Network shall be entitled to become a party to this Agreement, with substantially similar rights and obligations as the other Network parties, by executing a copy of this Agreement within six months after meeting the definition of a New Network. If a New Network becomes a party to this Agreement, the parties shall take the necessary steps to incorporate the New Network into the Red Light/Green Light system at the next 6-month meeting.

14.3. **First meeting.** The first six-month meeting pursuant to this Section 14 shall be held at a mutually convenient date in December 1998.

14.4 **Transitional matters.** Subscribers in Green Light Zip Codes with respect to a local ABC, CBS, Fox, or NBC station that are reclassified as Red Light Zip Codes because of changed circumstances (e.g., change in tower location, addition of translator, etc.) shall continue to be treated as though they were in a Green Light Zip Code for six months after the reclassification. Subscribers to a station affiliated with a New Network, who began receiving signals from the station at a time when no "unserved household" limitation was applicable to the New Network, shall be permitted to continue to subscribe to that station indefinitely. In each case, the Satellite Carriers agree to provide the Broadcasters with a complete and accurate list of the relevant subscribers within 60 days after the new classification goes into effect.

15. TERM OF AGREEMENT

This Agreement shall extend through the later of (1) December 31, 1999 or (2) any extension of the SHVA in its current form, provided that the Agreement shall terminate as of December 31, 2002 unless voluntarily extended by the parties. If at any time during the term of this Agreement legislation is enacted materially modifying the standards for which households may be provided with Satellite-Delivered Network Programming under the Section 119 compulsory license or otherwise, any party may, on a prospective basis, terminate this Agreement as to that party. Termination shall have no effect on the obligations of the parties prior to termination or on the parties' ability to obtain relief pursuant to this Agreement for prior breaches of those obligations. In the event of such a material modification in the statute, however, the parties agree to make all reasonable efforts in good faith to devise and implement a

new system designed to ensure, prior to delivery of Satellite-Delivered Network Programming to a particular subscriber, that the subscriber satisfies the new eligibility requirements.

16. CONDUCT OF PARTIES

The Satellite Carriers and Broadcasters agree that, in carrying out the terms of this Agreement, they will not criticize or blame the other for enforcing their rights under this Agreement or under the SHVA. Each party further agrees not to provide (and the Satellite Carriers will require in all agency and distribution agreements with their agents and distributors that the latter will not provide) members of the public with names or telephone numbers of particular officers, agents, attorneys, or employees of any other party to this Agreement unless they have obtained the consent of that party to do so.

17. MOST FAVORED NATION

Broadcasters shall inform each Satellite Carrier within 45 days of entering into an agreement with a major satellite carrier or major distributor of Satellite-Delivered Network Programming by satellite ("Third Party") relating to enforcement of the "unserved household" limitation on delivery of Satellite-Delivered Network Programming. Each Satellite Carrier will then, for 30 days, have the option of entering into the agreement that the Broadcasters have made with the Third Party, including both the relevant material provisions that are more favorable and those that are less favorable to the Satellite Carrier; provided that no deadlines contained herein with regard to procedures for signups of New Subscribers shall be affected by a Satellite Carrier's exercising such an option unless such an agreement is reached within sixty (60) days after the Effective Date. The parties agree that, should an agreement with a Third Party require the Third Party to make a settlement payment relating to past conduct, the Satellite Carriers would not be required to make such a payment in order to avail themselves of the provisions of this Section 17.

18. DISPUTE RESOLUTION CONCERNING ERRORS IN ZIP CODE LISTS

Because the acceptance testing process is complete, any changes to the Zip Code lists provided by the contractor on or about April 21, 1998 may be made only by mutual agreement or to correct manifest errors. Should disputes arise concerning whether there are manifest errors in the Zip Code lists provided by the contractor on or about April 21, 1998, the NAB and the Satellite Carriers hereby appoint James Rocap or his designee at Miller Cassidy Larroca & Lewin to conduct informal binding arbitration, to be finally resolved in no more than seven (7) calendar days, with an extension of two (2) calendar days if extraordinary circumstances so require.

19. COST-SHARING

The NAB and the Satellite Carriers agree to share the costs of the computer analysis of signal propagation by Zip Code under Sections 1 through 3 above, and of updates pursuant to Section 14 above, equally between the NAB and the Satellite Carriers.

20. ADVERTISING AND DISCLOSURES

The Satellite Carriers will not, and will require in all agency and distribution agreements with their agents and distributors that the latter will not:

(a) publish in any medium any advertisement or other material promoting or describing the availability of Satellite-Delivered Network Programming unless the advertisement or other material states, in a clear, conspicuous, and prominent manner, that such programming is (1) intended only for private home viewing, (2) available only to households that cannot receive that network over the air through use of a conventional outdoor rooftop antenna, and (3) available only in households that have not received that network by cable television within 90 days before the satellite service is commenced; or

(b) advertise or otherwise promote the use of Satellite-Delivered Network Programming as a way to view programming at different times than it is available locally.

21. NO ADMISSIONS

Nothing contained herein shall be construed to be an admission of wrongdoing or liability by any party, or shall constitute acknowledgment of any fact, interpretation, right, or obligation under the SHVA by any party other than for purposes of this Agreement.

22. SUCCESSORS AND ASSIGNS

This Agreement shall be fully binding on and inure to the benefit of the successors and assigns of each party. Netlink expects that Telluride will shortly assume the Netlink Satellite Carrier Business. When Telluride does so, Netlink expects to cease to be a Satellite Carrier under the SHVA. Netlink represents and warrants that Telluride will be a solvent going concern when Telluride assumes the Netlink Satellite Carrier Business and that Telluride will be capable of performing the obligations of Netlink under this Agreement. If Telluride assumes the Netlink Satellite Carrier Business within 120 days after the Effective Date, and if Netlink simultaneously ceases to be a satellite carrier, the parties agree that Netlink shall have no further obligations or responsibilities under this Agreement, subject to the representation and warranty above. (However, if such assumption by Telluride occurs prior to the Effective Date, the releases to be granted by and to Netlink as one of the Satellite Carriers under Section 23 shall be deemed effective on the Effective Date. Nothing herein shall affect the validity of any release granted by or to Netlink under this Agreement.) However, if Netlink again becomes a Satellite Carrier

under SHVA of Satellite-Delivered Network Programming after the Telluride transaction, it shall be fully subject to this Agreement. Telluride hereby agrees to be bound by the provisions of this Agreement applicable to Netlink, and will receive the corresponding benefits, when Telluride assumes the Netlink Satellite Carrier Business.

23. RELEASES

As of the Effective Date of this Agreement:

23.1 Broadcasters' Release of Satellite Carriers. The Broadcasters, the NAB, and the Affiliate Associations, for themselves and on behalf of their subsidiaries, parent corporations, divisions, and affiliates, and the respective officers, directors, shareholders, agents, employees, representatives, successors and assigns of each such entity hereby release each of the Satellite Carriers and its/their subsidiaries, parent corporations, divisions, constituent partners, and affiliates, and their respective officers, directors, shareholders, employees, representatives, successors and assigns, from any and all claims, demands, debts, damages, duties, and causes of action of any kind whatsoever, in law or in equity, whether or not known or previously asserted, which the Broadcasters, the NAB, and the Affiliate Associations ever had, now have, or hereafter may have relating to or arising out of the delivery or attempted delivery up to the Effective Date of this Agreement of ABC, CBS, Fox, or NBC television Satellite-Delivered Network Programming to households for private home viewing. Nothing in the preceding sentence provides any release to any distributor or agent of any Satellite Carrier, provided that the Broadcasters, the NAB, and the Affiliate Associations hereby agree to provide unconditionally the same release described in the preceding sentence (with respect to the distributor's or agent's activities on behalf of a Satellite Carrier) to any distributor or agent of the Satellite Carriers that provides a written release to the Broadcasters, the NAB, and the Affiliate Associations in the form of Section 23.2 below. A release provided by the NAB or an Affiliate Association applies only to that organization and does not itself constitute a release by any Broadcaster.

23.2 Satellite Carriers' Release of Broadcasters. The Satellite Carriers hereby release each of the Broadcasters, the NAB, and the Affiliate Associations from any and all claims, demands, debts, damages, duties, and causes of action of any kind whatsoever, in law or in equity, whether or not known or previously asserted, which the Satellite Carriers, their subsidiaries, parent corporations, divisions, constituent partners, and affiliates, and their respective officers, directors, shareholders, agents, employees, representatives, successors and assigns of each such entity ever had, now have, or hereafter may have relating to or arising out of the delivery or attempted delivery up to the Effective Date of this Agreement of ABC, CBS, Fox, or NBC television Satellite-Delivered Network Programming to households for private home viewing. A release provided to the NAB or an Affiliate Association applies only to that organization and does not itself constitute a release of any Broadcaster.

23.3 Compliance. Subject to the exception set forth in the remainder of this Section 23.3, each of the parties to this Agreement hereby acknowledges that enforcement of this

Agreement shall constitute its exclusive remedy during the term of this Agreement for actions controverting the SHVA and releases each other party from any claims it may have under the SHVA for delivery of Satellite-Delivered Network Programming to subscribers for private home viewing after the Effective Date of this Agreement and before its termination through the period during which such other party is a party to this Agreement. Notwithstanding the preceding sentence, the Broadcasters expressly reserve, and do not waive, their right to seek all available relief under the Copyright Act if a Satellite Carrier sells Satellite-Delivered Network Programming to Significant Numbers (as defined in Section 8.4 above) of Unauthorized Subscribers. The determination of whether a Satellite Carrier has sold Satellite-Delivered Network Programming to Significant Numbers of Unauthorized Subscribers need not be resolved through the alternative dispute resolution procedures of Section 28 below before filing such a lawsuit. The Broadcasters agree not to file a copyright infringement lawsuit against a Satellite Carrier without giving the Carrier 60 days advance written notice to take such actions as the Carrier believes to be appropriate with respect to the alleged infringement. If a Broadcaster elects to file a copyright infringement action against a Satellite Carrier, the Broadcaster agrees, on filing the action, (a) to terminate the Agreement prospectively as to that Satellite Carrier, (b) to waive its claims under Section 8.4 for specific performance by that Satellite Carrier of the obligation not to sell to Unauthorized Subscribers, and (c) if the Broadcaster seeks damages in the lawsuit, to reimburse the Satellite Carrier for any liquidated statutory damages paid to the Broadcaster under Section 8.3 for the period during which the Broadcaster alleges that there were Significant Numbers of Unauthorized Subscribers and for which the Broadcaster seeks damages in the copyright infringement action. Nothing herein shall either prevent an Affected Network Station from filing a lawsuit permitted by this Section 23.3 indirectly through an Affiliate Association plaintiff, nor constitute an agreement by a Satellite Carrier that an Affected Network Station is entitled to do so. If an Affected Network Station files a lawsuit through an Affiliate Association plaintiff, it shall nevertheless comply with the otherwise applicable requirements of this Section 23.3. The parties agree that any action brought by or against a Satellite Carrier under the Copyright Act relating to alleged violations of the "unserved household" limitation shall be brought in the United States District Court for the District of Columbia, the Southern District of New York, the Northern District of Illinois, or the Central District of California, and that such parties shall, for purposes of this Agreement only, by their respective execution of this Agreement hereby submit to the personal jurisdiction and venue of such courts, provided that a Broadcaster may bring suit in another federal district court if the court dismisses a lawsuit brought in one of such courts for lack of personal jurisdiction or venue, or transfers a lawsuit to another federal district court over the opposition of the Affected Network Station, Affiliate Association, or Network plaintiff. Sections 23.1, 23.2, and 23.3 shall survive the termination or expiration of this Agreement with respect to matters arising before the termination or expiration of this Agreement.

23.4 No Effect on Obligations. No release or other provision of this Agreement shall affect any other contract by which any party has undertaken to make payments to any other party for some other purpose, any obligation to make payments under 17 U.S.C. § 119(b), or any contract to make payment for the carriage of broadcast programming.

24. DEFINED TERMS

Schedule 24.1 contains a list of the defined terms used in this Agreement.

25. CONSTRUCTION OF TERMS

When a party is entitled under this Agreement to take an action (or to refrain from taking an action) within its own sole discretion, the party shall be entitled to exercise its discretion without regard to any claimed implied obligation of good faith and fair dealing, to any claimed implied obligation to make particular efforts relating to the matter, or to any other express or implied legal obligation of any kind whatsoever.

26. REPRESENTATIONS AND WARRANTIES

Each party hereto represents and warrants that it has full power and authority to enter into and perform this Agreement. Each party agrees to indemnify and hold the other harmless from any and all claims arising in connection with that party's breach of the applicable foregoing representations and warranties.

27. NOTICES

27.1 Persons to whom notices should be sent. Any notices required to be sent to the Networks pursuant to this Agreement shall be sent by facsimile or overnight delivery service addressed to the names and addresses listed next to their signatures. Other notices may be sent to a party to this Agreement by U.S. Mail or by facsimile or overnight delivery to the name and address listed next to the party's signatures, unless a written notice of name or address change has been provided to the party giving such notice. An updated address list shall be created each six months pursuant to Section 14.

27.2 Notice by facsimile. Notice sent by facsimile shall be deemed given on the day sent if confirmed by telephone with the individual to whom the notice has been sent.

28. MISCELLANEOUS

28.1 Alternate Dispute Resolution. Subject to the provisions of Section 28.2 below, if a party notifies another party in writing of a controversy or claim arising out of or relating to this Agreement; or the breach, termination, or validity thereof, the non-claiming party shall have fourteen calendar (14) days to respond in a written statement to the objection. If after such fourteen (14) day period there remains a dispute as to any claims or controversies, the parties shall attempt in good faith for thirty (30) days to agree upon the rights of the respective parties with respect to each of such claims. If the parties should so agree, a memorandum setting forth such agreement shall be prepared and signed by the relevant parties. The actions and decisions of a party's duly authorized representative shall be binding on such party. If the parties should not

agree, representatives of the relevant parties shall meet (by conference telephone call or in person at a mutually agreeable site) within one week after written notice of a disagreement is given. Such representatives shall attempt to make a final determination of the dispute, and if they reach agreement, any payments or other actions shall be made or taken within five (5) days in accordance with such agreement. If the representatives should so agree, a memorandum setting forth such agreement shall be prepared and signed by the relevant parties. If the representatives do not reach agreement within 45 days after the written response to the initial objection, the representative of any of the parties to the dispute may give written notice of an impasse, in which case such controversy or claim arising out of or relating to this Agreement, or the breach, termination, or validity thereof, shall be settled by arbitration in accordance with the Center for Public Resources Rules for Non-Administered Arbitration of Business Disputes, by three neutral arbitrators who shall be currently active practitioners in the relevant jurisdiction experienced with commercial contracts. The arbitration shall be governed by the United States Arbitration Act, 9 U.S.C. §§ 1-16, and judgment on the award rendered by the arbitrator(s) may be entered by any court having jurisdiction thereof. The place of the arbitration shall be Washington, D.C., Chicago, Illinois, or Los Angeles, California. Absent extraordinary extenuating circumstances, the arbitrator shall award reasonable attorney's fees to the substantially prevailing party.

28.2 Non-applicability to copyright infringement action. The dispute resolution procedures set forth in Section 28.1 above are not applicable to the filing of a copyright infringement action under the circumstances set forth in Section 23.3 above. The agreed prerequisites for filing of a copyright infringement action are set forth in Section 23.3.

28.3 Applicable Law. This Agreement shall be governed by, and construed solely in accordance with, the laws of the District of Columbia (other than its laws relating to conflicts of laws).

28.4 Entire Agreement. This Agreement contains the entire agreement between the parties hereto with respect to the subject matter hereof and supersedes and cancels all previous agreements, commitments and writings with respect thereto, including but not limited to all drafts of this Agreement and any term sheet relating to the Agreement. This Agreement may not be modified in any manner except by an instrument in writing signed by the party to be charged.

28.5 Construction of Agreement. Each party and its counsel have participated in the drafting of this Agreement. The Agreement shall not be construed for or against any party as the draftsperson hereof.

28.6 Counterparts. This Agreement may be executed in counterparts.

28.7 Headings. The headings of the sections in this Agreement are for convenience only and shall not in any way affect the interpretation of this Agreement.

28.8 No Third-Party Beneficiaries. Subject to the next sentence of this Section 28.8, no person or entity that is not a party to this Agreement shall be deemed to have any privity of contract or to be a third-party beneficiary under this Agreement for any purpose whatsoever. The sole exception to the foregoing sentence is that a New Network shall be considered a third party beneficiary for purposes of Section 14.2 above.

28.9 No Disclosure of Subscriber Information. Except to the extent necessary to enforce this Agreement or as mutually agreed, no party shall disclose identifying information about any subscriber or otherwise disclose information provided by another party (including but not limited to reports provided by Satellite Carriers to the Networks and the results of any audit). If production of such information is sought in a legal proceeding, the parties agree to seek a protective order to preclude public disclosure of such information.

28.10 Breach by one party applicable to that party alone. A claimed breach by one party to this Agreement (e.g., one Satellite Carrier or one Affected Network Station) shall not be treated as a breach by any other party. Rather, compliance by any party with its obligations under this Agreement shall be determined based solely on the conduct of that party, and termination of the Agreement by a party for breach shall be limited to the breaching party or parties.

28.11 Distributors and agents.

(a) In any provision of this Agreement in which a Satellite Carrier agrees to require its distributors and/or agents to take certain actions, the Satellite Carrier shall be required to include such provisions in any renewal of a distribution or agency agreement and any agreement entered into with a new distributor or agent. The Satellite Carriers represent that substantially all of their distribution or agency agreements are either up for renewal within 12 months of the Effective Date of this Agreement, or that they will otherwise take steps to require their distributors or agents to take such actions within that period.

(b) The Satellite Carriers agree that their obligations under this Agreement (including, by way of illustration, the obligations with respect to New Subscribers in Red Light Zip Codes after the Effective Date (see Section 4 above) and with respect to Existing Red Light Subscribers (see Section 9 above)) shall not be reduced or excused in any way because of the fact that the Satellite Carriers rely on agents and distributors.

28.12 Severability. If any provision of this Agreement, or the application thereof to any person or circumstances is held invalid or is unenforceable, the remainder hereof, and the application of such provision to such person or circumstances in any other jurisdiction, shall not be affected thereby. However, if the invalidity or unenforceability of a provision deprives a party of the substantial benefit of the bargain, the provision shall be considered non-severable.

28.13 Obligations of NAB and Affiliate Associations. The only affirmative undertakings made by the NAB in this Agreement are those in Sections 1, 12, 13, 14, 18, 19, 23, 26, and 28.9. The only affirmative undertakings made by the Affiliate Associations in this Agreement are those in Sections 12, 13, 23, 26, and 28.9.

28.14 Counting of days. Except to the extent indicated otherwise, the computation of time under this Agreement shall follow Federal Rule of Civil Procedure 6 as in effect on December 31, 1997.

28.15 Scope of Agreement. Notwithstanding any other provision of this Agreement, the Satellite Carriers shall have no obligations under this Agreement to any Network Station that has not executed this Agreement within 30 days after the Effective Date. Nor shall the Satellite Carriers have any obligation under this Agreement to any party to this Agreement with respect to a Network Station that has not executed this Agreement within 30 days after the Effective Date. The Satellite Carriers may, in their sole discretion, permit a Network Station to enter into this Agreement thereafter. Nothing in this Agreement shall increase or diminish the rights under the Copyright Act or otherwise of any Network Station that does not enter into this Agreement.

29. Effective date. The Effective Date of this Agreement is the first day of the month that (a) begins at least 15 days after the day on which the Broadcasters present the Satellite Carriers with documentation that the owners of at least 75% of ABC, CBS, Fox, and NBC stations (or such lower percentage as the Satellite Carriers agree in writing to accept in lieu of 75%) have signed the Agreement, and (b) begins at least 39 days after the contractor delivers the report entitled "Red Light/Green Light Processing -- Unique Zip Codes by Network" to the Satellite Carriers. If delays in delivery of the latter report result in a postponement of the Effective Date of this Agreement by more than 60 days after the Effective Date that would be calculated under Section 29(a), the Broadcasters, the NAB, and the Affiliate Associations reserve the right to withdraw their acceptance of this Agreement. Notwithstanding the foregoing, Sections 1, 12, and 13, 18, 19, and this Section 29 are effective as of December 31, 1997.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day and year first above written.

SCHEDULE 1.2

REQUIREMENTS FOR COMPUTER ANALYSIS OF SIGNAL PROPAGATION BY ZIP CODE

A. DATA SOURCES

1. Stations to be analyzed: all ABC, CBS, Fox, and NBC transmitters and translators in the United States

Data source: Dataworld (to be provided by Primestar to contractor, Netlink, and NAB)

2. Longley-Rice propagation: to be derived using same methodology previously used by Primestar, based on newly purchased data from TA Services or Dataworld (if shown to be identical to TA Services output) (to be provided by Primestar to contractor, Netlink, and NAB)
3. National Zip Code list: GDT (format: ArcView shape files) (to be provided to contractor, Netlink, and NAB by Primestar)
4. List of which Zip Codes belong in each DMA: Nielsen Zip-to-DMA (to be acquired by contractor and provided to Primestar, Netlink, and NAB, subject to possible payment to Nielsen of no more than \$500 per copy by Primestar or Netlink and \$500 per copy by NAB). For Zip Codes not in the Nielsen Zip-to-DMA list, contractor to determine DMA based on the best available information using the Zip-to-DMA lists as a guide.
5. Addition of certain non-DMA Zip Codes to create "DMA-plus": to come from Nielsen list attached as Schedule 4.2. In non-DMA counties, only those Zip Codes that are predicted to be at least 99% served (per Longley-Rice) will be included in the analysis.
6. Block centroid locations: 1990 Census data from contractor (format: ArcView point files) (contractor to provide to Primestar, Netlink, and NAB)
7. Block populations: 1990 Census data from contractor (format: .dbf files) (contractor to provide to Primestar, Netlink, and NAB)
8. ZIP-to-County list: from GDT (by geographic area) (Primestar to provide to contractor, Netlink, and NAB)

B. PROCEDURE

1. Using data sources ## 4, 5, and 8, determine which ZIP Codes are assigned to each station (by adding all ZIP Codes in each DMA and all ZIP Codes in each station's DMA-plus). These may vary by station within a given DMA. Establish the population distribution for each ZIP Code

using the 1990 Census block centroid and block population data. Overlay the Longley-Rice propagations.

2. For every Zip Code within each station's DMA, determine whether more than 50.000000% of population in that Zip Code is predicted to receive a Grade B intensity signal (per Longley-Rice Data) from that station. If so, classify Zip Code as Red Light with respect to that station. If not, classify as Green Light with respect to that station.
3. For every Zip Code in a county outside a station's DMA but assigned to a station's DMA-plus, determine whether at least 99% of the population of the Zip Code is predicted to receive a Grade B intensity signal (per Longley-Rice Data). If so, classify the Zip Code as Red Light with respect to that station. If a Zip Code in a county outside a station's DMA is predicted to be less than 100% served, do not include that Zip Code in the analysis for that station.
4. Method for roughly equalizing unserved Red Light and served Green Light populations: for any individual station, if (I) the aggregate population in Red Light Zip Codes predicted to be unserved per Longley-Rice Data is greater than (II) the aggregate population in Green Light Zip Codes predicted to be served per Longley-Rice Data, Red Light Zip Codes shall be reclassified (in rank order starting with the Zip Codes with the lowest percentage of population predicted as receiving a signal of at least Grade B intensity) as Green Light Zip Codes until (I) and (II) are approximately equal. However, the reclassification described in the preceding sentence shall be limited to Zip Codes in which less than 75% of the population is predicted by the Longley-Rice Data to receive a signal of at least Grade B intensity; in addition, the reclassification shall itself not cause (II) to exceed (I). This process shall not result in the reclassification of more than .5% (one-half of one percent) of the total population of the Zip Codes assigned to a station (whether inside or outside the station's DMA).

C. EXPANDED PILOT TEST

Perform procedures above for 10 test stations; prepare visual depiction of results to be reviewed by NAB and satellite companies; provide personnel to explain results. Make supporting data available (e.g., number of Zip Codes classifying various ways) on request. (COMPLETED)

D. DELIVERABLES, IN ASCII-DELIMITED TEXT FORMAT (AND NO MORE THAN THREE HARD COPIES IF REQUESTED)

1. For each station, a table listing all Zip Codes within the station's DMA (and all Red Light Zip Codes assigned to the station outside the station's DMA), with the following fields: (a) station call letters, (b) station DMA name, (c) station DMA number, (d) 5-digit Zip Code number, (e) Zip Code DMA name, (f) Zip Code DMA number, (g) county in which Zip Code is located, (h) total population of that Zip Code, (i) population of that Zip Code that is shown as served by Longley-Rice, (j) population of that Zip Code that is shown as unserved by Longley-Rice, (k)

percent of that Zip Code's population that is shown as served by Longley-Rice, and (l) final classification (Red or Green) with respect to that station.

Place an asterisk (or some other identifying symbol) next to each adjusted-status Zip Code shown as Green Light because of the rough equalization procedure described above.

SAMPLE attached as Exhibit A.

2. For each station, contractor will provide NAB, Primestar, and Netlink a list of all transmitters and translators included in the Longley-Rice Data for that station, in the format attached as Exhibit B.

3. A list of all Zip Codes in the United States, with the fields set forth below. (Note: there may be more than one station assigned to a given Zip Code. If the Zip Code is Red with respect to any station of that Network, its final status will be Red.)

Zip Code

ABC Status (Red/Green)

CBS Status (Red/Green)

NBC Status (Red/Green)

Fox Status (Red/Green)

SAMPLE attached as Exhibit C.

4. A list of all Zip Codes in the United States, with the fields set forth below:

Zip Code

Overall ABC Status (Red/Green)

Affected ABC Station # 1

Red/Green Status as to Affected ABC Station # 1

Affected ABC Station # 2

Red/Green Status as to Affected ABC Station # 2

Affected ABC Station # 3

Red/Green Status as to Affected ABC Station # 3

Overall CBS Status (Red/Green)

Affected CBS Station # 1

Red/Green Status as to Affected CBS Station # 1

Red/Green Status as to Affected CBS Station # 2

Affected CBS Station # 3
Red/Green Status as to Affected CBS Station # 3

Overall Fox Status (Red/Green)
Affected Fox Station # 1
Red/Green Status as to Affected Fox Station # 1
Affected Fox Station # 2
Red/Green Status as to Affected Fox Station # 2
Affected Fox Station # 3
Red/Green Status as to Affected Fox Station # 3

Overall NBC Status (Red/Green)
Affected NBC Station # 1
Red/Green Status as to Affected NBC Station # 1
Affected NBC Station # 2
Red/Green Status as to Affected NBC Station # 2
Affected NBC Station # 3
Red/Green Status as to Affected NBC Station # 3

SAMPLE attached as Exhibit D.

5. A summary report for each station, containing:

- station call letters
- DMA name
- DMA #
- for the following groups of Zip Codes, (a) total population in the Zip Codes, (b) served population (per Longley-Rice) in the Zip Codes, (c) unserved population (per Longley-Rice) in the Zip Codes, (d) percentage of total population:
 - Red Light (100% served)
 - Green Light (0% served)
 - Yellow Light (more than 0% but less than 100% served)
 - "Pink Light" (greater than 50% but less than 100% served) (only Zip Codes within the DMA)
 - "Lime Light" (more than 0% but less than or equal to 50% served) (only Zip Codes within the DMA)
 - New Red Light (after reclassification)
 - New Green Light (after reclassification)
 - total population of DMA

- total population of DMA-plus Zip Codes
- total population in all Zip Codes in DMA and DMA-plus

NOTE: This report will be done on a station-by-station basis, without taking into account coverage provided by other stations that spills into the station's own DMA. (The report will include the station's own coverage outside its DMA, as part of the "DMA-plus.") The report should contain a conspicuous statement that there may be Zip Codes in the DMA that are served by a non-DMA station and are Red Light Zip Codes for that reason.

SAMPLE attached as Exhibit E.

E. FINAL ACCEPTANCE TESTING

At the earliest possible date, contractor shall provide at least 100 deliverables for individual stations, including examples of the following types of stations -- (a) stations that have only a single transmitting tower, (b) stations that have both a main transmitter and translators, and (c) stations that have non-DMA counties assigned to them, (d) stations in which the "imbalance" correction procedure described above has been carried out. Satellite Carriers and NAB will perform quality control review on deliverables for 25 stations, 15 of which shall be selected at random. The 25 stations shall include 10 of the stations for which contractor prepared sample maps and data in the pilot test described in Section C above. Final payment is contingent on (a) approval by Satellite Carriers and NAB, which shall not be unreasonably withheld and (b) delivery of all other deliverables.

F. MECHANISM FOR CREATING VIEWABLE MAPS

Under a separate agreement, contractor has agreed to produce viewable maps for individual stations requesting them.

G. POTENTIAL ADDITIONAL PROCESSING

1. Changes made to individual signal areas after contractor is given the signal areas. (Agreed-on price reflects all such changes before January 22, 1998.)
2. Changes made after six-month review.

H. INCENTIVE PAYMENTS

NAB and Satellite Carriers to split equally between them a bonus payment of \$12,000 to contractor based on performance to date.

EXHIBIT D

Red Light / Green Light Station Summary Report

EXHIBIT E

WJSU
ANNISTON
ABC - DMA 646 (DMA Plus)

Population

ZIP Classification	Total	Served	Unserved	% Population
Initial Classification				
Red Light (100% served)	45813	45813	0	29.45%
Green Light (0% served)	0	0	0	0.00%
Yellow Light (0.01-99.99% served)	109737	101465	8272	70.55%
Analysis of Yellow Light				
Pink Light (50.01-99.99% served)	100712	97912	2800	64.75%
Lime Light (0.01-50.00% served)	9025	3553	5472	5.80%
Reclassification of Yellow Light				
Partial Equalization of Unserved Pink and Served Lime	0	0	0	0.00%
Adjusted Pink Light	100712	97912	2800	64.75%
Adjusted Lime Light	9025	3553	5472	5.80%
Final Results				
New Red Light	146525	143725	2800	94.20%
New Green Light	9025	3553	5472	5.80%
DMA Population	117913	109722	8191	75.80%
DMA Plus Population	37637	37556	81	24.20%
Entire DMA and DMA-plus ZIP Codes	155550	147278	8272	100.00%

Note: This analysis reflects only your station's propagation. There may be "green Light" ZIP Codes in your DMA that are served by another station of your network and classified as Red Light ZIP Codes with respect to satellite delivery of programming of your network. Information about the final Red Light/Green Light status of each ZIP Code is available in the reports titled "Detailed Analysis of Red Light/Green Light ZIP Codes" and "Red Light/Green Light Processing - Unique ZIP Codes by Network."

SCHEDULE 4.2

NIELSEN REPORTS

REPORT # 1: 748 Instances in Which the Receiving DMA Has All Four Affiliates (ABC, CBS, FOX, and NBC)

Report date: 12/5/97

REPORT # 2: 272 Instances in Which the Receiving Dma Does Not Have an Affiliate of the Relevant Network (ABC, CBS, FOX, and NBC)

Report date: 12/2/97

NIELSEN REPORT # 1:

**748 INSTANCES IN WHICH
THE RECEIVING DMA HAS
ALL FOUR AFFILIATES
(ABC, CBS, FOX, AND NBC)**

Report date: 12/5/97

SCHEDULE 4.7

DEADLINES

September 15, 1998: Satellite Carriers provide Monthly List for June 1998 (note: 15 extra days because this is first report under new regime)

October 1, 1998: Satellite Carriers provide Monthly List for July 1998. (This commences the "normal" 60-day turnaround procedure, which will apply for all subsequent months.)

July 31, 1999 (14 months after Effective Date) (unless postponed per Section 9.4): Satellite Carriers complete disconnection of Existing Red Light Subscribers, other than those (a) tested, (b) given a Waiver by the Affected Network Station(s), or (c) determined not to be served under Section 9.3.

The above dates assume that the Effective Date of the Agreement is June 1, 1998. If the Effective Date is later than June 1, 1998, these dates will be postponed correspondingly.

SCHEDULE 7

PROCEDURES FOR SIGNAL INTENSITY TESTING

The Broadcasters and the Satellite Carriers agree to the following procedure for conducting signal intensity tests. The parties' agreement to these procedures as part of this Agreement is a compromise, and is without prejudice to their individual positions about the best way of carrying out signal intensity tests.

a. An "interested party" (e.g. installer or station engineer, but not a customer) may perform the test according to the protocol set forth below. The other side must be invited on at least 45 calendar days' written notice. If the party performing the test prefers, it may use a neutral third party engineer.

b. A standardized antenna -- the Channel Master Model 3016 Antenna along with 50 feet of RG/6U cable, or such other standardized antenna as the parties may agree to -- rather than homeowner's own system, shall be used for the test. Such list may be updated by mutual agreement. The antenna must be pointed in the direction in which the strongest signal is available from the station in question.

c. The meter must have been properly calibrated by being sent back to the manufacturer for recalibration within the previous two years.

d. A cluster of five measurements shall be taken either (at the tester's option) (i) as close to the home as possible given safety and other constraints (probably in the driveway in most cases) or (ii) at the nearest public road from which measurements can be safely made; required minimum distance between five points small enough to make testing practical.

e. The median value among the five measurements shall be determinative. There shall be no deduction of standard deviation. The values for Grade B intensity shall be those set forth in 47 C.F.R. § 73.683(a), as in force on June 1, 1997.

f. The measurement shall be taken at approximately 30 feet above ground for a two-story or higher home and at approximately 20 feet above ground for a one-story home.

g. A table providing the minimum output values required to establish Grade B intensity for the approved equipment is attached hereto as Exhibit A.

h. If there is a disagreement between the Broadcaster representative and the Satellite Carrier representative about whether proper procedures were followed, it shall be resolved by having a mutually acceptable neutral third party engineer do a new test. If the parties are unable to agree on a neutral third party engineer, the parties hereby nominate James Rocap or his designee at Miller Cassidy Larroca & Lewin to nominate such a neutral engineer, using

informal binding arbitration to be resolved within 10 business days. The loser will pay the costs of both the original test and the neutral test.

i. The parties agree that under no circumstances shall any party be entitled to require another party to pay more than \$150 for a signal intensity test for a single location. If a neutral engineer is required to resolve the dispute, a separate \$150 maximum shall be applicable.

j. Payment of the costs of signal intensity testing under the "loser pays" provision of this agreement shall be made within 45 days of receipt of a written invoice for such costs.

SCHEDULE 8.1

FORMAT FOR LISTS OF SUBSCRIBERS

-- Spreadsheet in standard Excel or ASCII format (in electronic form) with the following fields:

Customer First Name
Customer Middle Initial (if available)
Customer Last Name
Customer Street Address
Customer Home Phone Number
City
State
County
Zip Code

[The following data are needed separately for each Network:]

Date(s) on which network service initiated
Date(s) on which network service terminated
Affected Network Station(s)
Existing Yellow Light Subscriber Geocoded as Unserved? (Yes/no) [NOTE: this field is relevant only to lists of Existing Subscribers]
Status (Green / Red)
Tested? (Yes/No)
Station Waiver (Yes/No)
Station(s) Granting Waiver (call letters)
Station Written Declination of Test? (Yes/No)
Station(s) Declining Test (call letters)

SCHEDULE 12.1
AGREED PRESS STATEMENT

"We are pleased to announce an agreement between the network broadcast industry and two major satellite carriers, Primestar and Netlink, relating to the "white area" dispute over the delivery of distant network signals under the Satellite Home Viewer Act. Using predictive scientific data to determine which households are, and which are not, likely to be able to receive a signal of Grade B intensity from their local network stations, the parties hope that the settlement can eliminate customer confusion and result in greater harmony between the satellite and broadcast industries. The Agreement also provides for procedures to enable satellite carriers and broadcasters to conduct signal intensity tests to verify whether particular households can -- or cannot -- receive a signal of Grade B intensity."

"Without prejudice to their legal positions, the parties to this Agreement believe it is a sensible compromise of continued disputes over the eligibility of satellite subscribers to receive distant network signals. They believe that the practical approach they have developed should be given a chance to work and do not believe that it is appropriate to change the prohibition on delivery of distant network stations by satellite under Section 119 to households that can receive a signal of Grade B intensity from a local network station."

SCHEDULE 24.1

DEFINED TERMS

This Schedule has been prepared solely for the convenience of the parties. In the case of any difference between the text of the Agreement and this Schedule, the text of the Agreement shall govern. (The source for each definition is indicated in italics if not otherwise clear.)

"Affected Network Station" means, with respect to a particular subscriber and the Satellite-Delivered Network Programming of a particular Network, a primary Network Station of the same affiliation (*e.g.*, ABC, CBS, Fox, or NBC) as the Satellite-Delivered Network Programming retransmitted by the Satellite Carrier where either (i) the Network Station's Designated Market Area as defined by Nielsen ("DMA") includes the subscriber's Zip Code or (ii) the Network Station enjoys rights outside its DMA in the subscriber's Zip Code pursuant to Section 4.2 below. (*Source: Section 4.1*)

"Affiliate Associations" means the ABC Television Affiliates Association, the CBS Television Network Affiliates Association, the Fox Television Affiliates Association, and the NBC Television Affiliates Association. (*Source: Preamble*)

"Agreement" means the Settlement and Compliance Agreement. (*Source: Preamble*)

"Below-Grade-B Test" means a signal intensity test pursuant to the procedures specified in Section 7 hereto showing that the subscriber does not receive a Grade B intensity signal. (*Source: Section 4.3(b)*)

"Broadcasters" means the Networks and the ABC, CBS, Fox, and NBC affiliated and owned-and-operated television network stations signing the Agreement. (*Source: Preamble*)

"Deadlines" means the schedule set forth in Schedule 4.7. (*Source: Section 4.7*)

"DMA" means the Network Station's Designated Market Area as defined by Nielsen. (*Source: Section 4.1*)

"End of the Transition Period" means after the end of the 14th (fourteenth) month after the Effective Date, or the date specified in Section 9.4, whichever comes later. (*Source: Section 9.1*)

"Effective Date" means the date specified in Section 29.

"Existing Green Light Subscribers" means subscribers in Green Light Zip Codes who subscribed to Satellite-Delivered Network Programming of the relevant Network from the relevant Satellite Carrier before the Effective Date. (Source: Section 10)

"Existing Red Light Subscribers" means subscribers in Red Light Zip Codes who subscribed to Satellite-Delivered Network Programming of the relevant Network From the relevant Satellite Carrier before the Effective Date. (Source: Section 9.1)

"Existing Subscribers" means subscribers who subscribed to Satellite-Delivered Network Programming of the relevant network from the relevant Satellite Carrier before the Effective Date of this Agreement. (Source: Section 4.4.)

"Geocoding" means a standard computer mapping process used to determine the specific location of the Subscriber's street address. (Source: Section 9.3)

"Grace Period" means the period between the date when a New Subscriber signs up for Satellite-Delivered Network Programming from a particular Satellite Carrier and the end of the second month after the end of the month when the New Subscriber signs up. If a New Subscriber signs up for Satellite-Delivered Network Programming on January 15, for example, the Grace Period lasts until the end of two months after the end of January, or from January 15 through March 31. For subscribers who sign up for Satellite-Delivered Network Programming during the first month after the Effective Date, the Grace Period is two-and-one-half months after the end of the month in which the New Subscriber signs up. The term "Grace Period" is applicable only to New Subscribers. (Source: Section 8.8)

"Green Light Zip Code" is defined in Sections 2 and 3.

"Interested Party" means, for example, an installer or station engineer, but not a customer. (Source: Schedule 7.)

"Longley-Rice Data" means the propagation data used in generating the classifications to be used in implementing this Agreement. (Source: Section 1.1)

"Monthly List" is defined in Section 8.1.

"NAB" means the National Association of Broadcasters. (Source: Preamble)

"Netlink" means Netlink USA, a Colorado general partnership, doing business as Netlink International. (Source: Preamble)

"Netlink Satellite Carrier Business" means Netlink's entire business of the uplinking and satellite carriage of the signals of broadcast television stations (presently known as the

"Denver 6"), and all of Netlink's corresponding assets and liabilities (Source: Whereas clause)

"Network Stations" means owned-and-operated primary ABC, CBS, Fox, and NBC network stations and primary ABC, CBS, Fox, and NBC network stations owned by third parties and affiliated with those Networks, in markets in the United States. (Source: Whereas clause)

"Networks" means ABC, Inc., CBS Broadcasting Inc., Fox Broadcasting Company, National Broadcasting Company. (Source: Preamble)

"New Networks" means one or more additional broadcast television networks that deliver programming through network stations and are entitled to "unserved household" protection under the Copyright Act or similar protection under the Copyright Act or otherwise (Source: Section 14.1)

"New Subscriber" means a subscriber that signs up for Satellite-Delivered Network Programming after the Effective Date of this Agreement (Source: Section 8.7)

"Other major entities delivering Satellite-Delivered Network Programming" means DirecTV, Echostar, and PrimeTime 24 for Primestar and PrimeTime 24 for Netlink. (Source: Section 9.4)

"Primestar" means Primestar Partners, L.P. (Source: Preamble)

"Red Light Zip Code" is defined in Sections 2 and 3.

"Satellite Carriers" means Primestar and Netlink. (Source: Whereas clause)

"Satellite-Delivered Network Programming" means satellite retransmission of ABC, CBS, Fox, or NBC network programming, currently through satellite retransmission of programming of a distant network stations (Source: Whereas clause)

"SHVA" means Section 119 of the Copyright Act. (Source: Whereas clause)

"Significant Numbers" means more than 5% of a Satellite Carrier's New Subscribers assigned to an Affected Network Station under Section 4 who sign up for Satellite-Delivered Network Programming during any period of six consecutive months or more than 5% of a Satellite Carrier's Existing Subscribers required to be reported under sections 9.2, 9.3, or 10, provided that fewer than 30 Unauthorized Subscribers for a single Affected Network Station for a single six-month period (or reported under Section 9.2, 9.3, or 10) shall not be considered to be "Significant Numbers." For a Network, "Significant Numbers" shall mean more than 5% of a Satellite Carrier's New Subscribers nationally over a six-month period,

or more than 5% of a Satellite Carrier's Existing Subscribers required to be reported under Sections 9.2, 9.3, or 10.)

(Source: Section 8.4)

"Station Transmitters" means the full-power transmitters and the full-power or low-power translators and terrestrial satellite stations associated with a Network Station. *(Source: Section 1.1)*

"Telluride" means Telluride Cablevision, Inc., a Delaware corporation (Source: Preamble)

"Third Party" means a major satellite carrier or major distributor of Satellite-Delivered Network Programming by satellite. *(Source: Section 17)*

"Transition Period" means 14 (fourteen) months after the Effective Date, or as extended under Section 9.4. *(Source: Section 9.1)*

"Unauthorized Subscriber" means any subscriber that falls into one of the following categories:

(a) a subscriber that signs up for Satellite-Delivered Network Programming after the Effective Date of this Agreement ("New Subscriber"), is located in a Red Light Zip Code, and does not satisfy one of the conditions set forth in Section 4.3(a)-(d);

(b) any New Subscriber that has been tested and found to receive a Grade B intensity signal pursuant to the procedures set forth in this Agreement, starting 60 days after the relevant Satellite Carrier receives written notice of the test results; and

(c) any New Subscriber as to which the relevant Satellite Carrier has provided a written notice of intent to terminate after receiving a notice of intent to conduct signal intensity testing, starting 60 days after that Satellite Carrier gives written notice of intent to terminate.

Starting at the end of the Transition Period, the following shall also be considered Unauthorized Subscribers:

(d) any Existing Red Light Subscriber that does not satisfy one of the conditions set forth in Section 4.3 (a)-(d);

(e) any Existing Subscriber that is tested after the end of the Transition Period and found to receive a signal of Grade B intensity pursuant to the procedures set forth

in this Agreement, starting 60 days after the relevant Satellite Carrier receives written notice of the test results; and

(f) any Existing Subscriber that is terminated after receiving a notice of intent to conduct, after the end of the Transition Period, signal intensity testing, starting 60 days after the relevant Satellite Carrier gives a written notice of intent to terminate.

(Source: Section 8.7)

"Waiver" means a written statement of non-objection. *(Source: Section 4.3)*

"Yellow Light Zip Code" means a Zip Code partially served and partially unserved (i.e., predicted by the Longley-Rice Data to receive at least a Grade B intensity signal in only portions of the Zip Code). *(Source: Section 2.1)*

"Zip Codes" means five-digit U.S. Postal Service Zip Codes. *(Source: Section 1.1)*
